

Open Letter to PKKP Members

Dear Members,

My name is Jeffery Mutetwa, and as your new Member Business Engagement Officer, I would like to introduce myself and give you a little background about why I am passionate about seeing members build sustainable businesses, that generate viable income streams for themselves and their families.

Born in Perth, I grew up predominantly in the northern suburbs, in a single parent home. My mother worked very hard in multiple jobs, to support myself and my siblings. This is where my interest in business and enterprise first developed, as I was always wanted to find a way to support my family financially, but always be there for my family, both physically and emotionally. It was always important for me to be able to nurture the important family relationships.

I attended school in both the public and private sector, eventually moving on to undertake my university education pursuits through Edith Cowan University, as a mature age student. My areas of study include Commerce, and Psychology, majoring in Human Resource Management. I am passionate about education and training, and I am constantly looking to expand my knowledge both through the formal education system, as well as through everyday interaction with people I am fortunate enough to engage with.

I have worked in a lot of different jobs and that has helped me gain experience and skills across multiple industry sectors, and this has seen my exposure to business and enterprise grow significantly over my working career. Over this time, I have been lucky to work in various capacities, from an employee across multiple departments, being an onsite labourer to working in senior commercial roles, including being a company director.

I am passionate about people and business, and my goal is to make myself available to all members to discuss current and upcoming opportunities. Whether it be providing advice on business structures or help to focus ideas into measurable and achievable goals, I hope to be the person you are comfortable to speak to, to get your projects off the ground.

I am excited to be employed at PKKP Enterprises and being available to assist members start on their journey to build capability in their business. I am available to discuss with you any ideas and opportunities you may be interested in, and to find ways to bring your business into to some of the exciting contracts that PKKP Enterprises are involved with, now and in the future.

If you have a current enterprise or have an idea that you would like to turn into a business, please feel free to reach out to me so I can see how PKKP Enterprises could help you and your family. I have provided my contact details below and I look forward to speaking to each one of you and seeing how I can assist.

Regards,

Jeffery Mutetwa

Member Business Engagement Officer
